

SUPERHUMAN

Revolutionizing Protein for a Sustainable Future for All

CONSUMER DEMANDS ARE EVOLVING

The \$1.4T Meat Industry is stuck in the past and unable to meet growing global need for protein

Consumers demand healthy, affordable, delicious, sustainable and ethical options.

SUPERHUMAN's Vision:

Solving the global protein crisis using cutting-edge fermentation biotech.

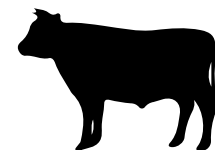

Bezos Earth Fund - Alternative Protein:

"The ultimate aim for us is to reduce price, boost deliciousness, and improve the health benefits.

So what we're looking for is that this takes 10-20% of global market share over the next decade or so.

And if you have 10% or 20% market share, you're having planetary-level impacts."

Meat 1.0 is a Disaster

Destroys the Planet:

15-28% of global emissions.
80% of Amazon deforestation

Harms Health:

Linked to heart disease and cancer.

Economically Broken:

Inefficient, expensive, and low-margin.

Meat 2.0 didn't deliver it's promise

IMPOSSIBLE™

Taste Challenges: Many consumers don't like the taste

Questionable Health Claims:

Consumer Backlash against high processing, GMO, artificial ingredients

Expensive \$\$\$\$

High COGS, high CapEx
Over **\$5 billion** spent on R&D

MEET MEAT 3.0

Superhumn is the only market-ready solution that delivers on all fronts:

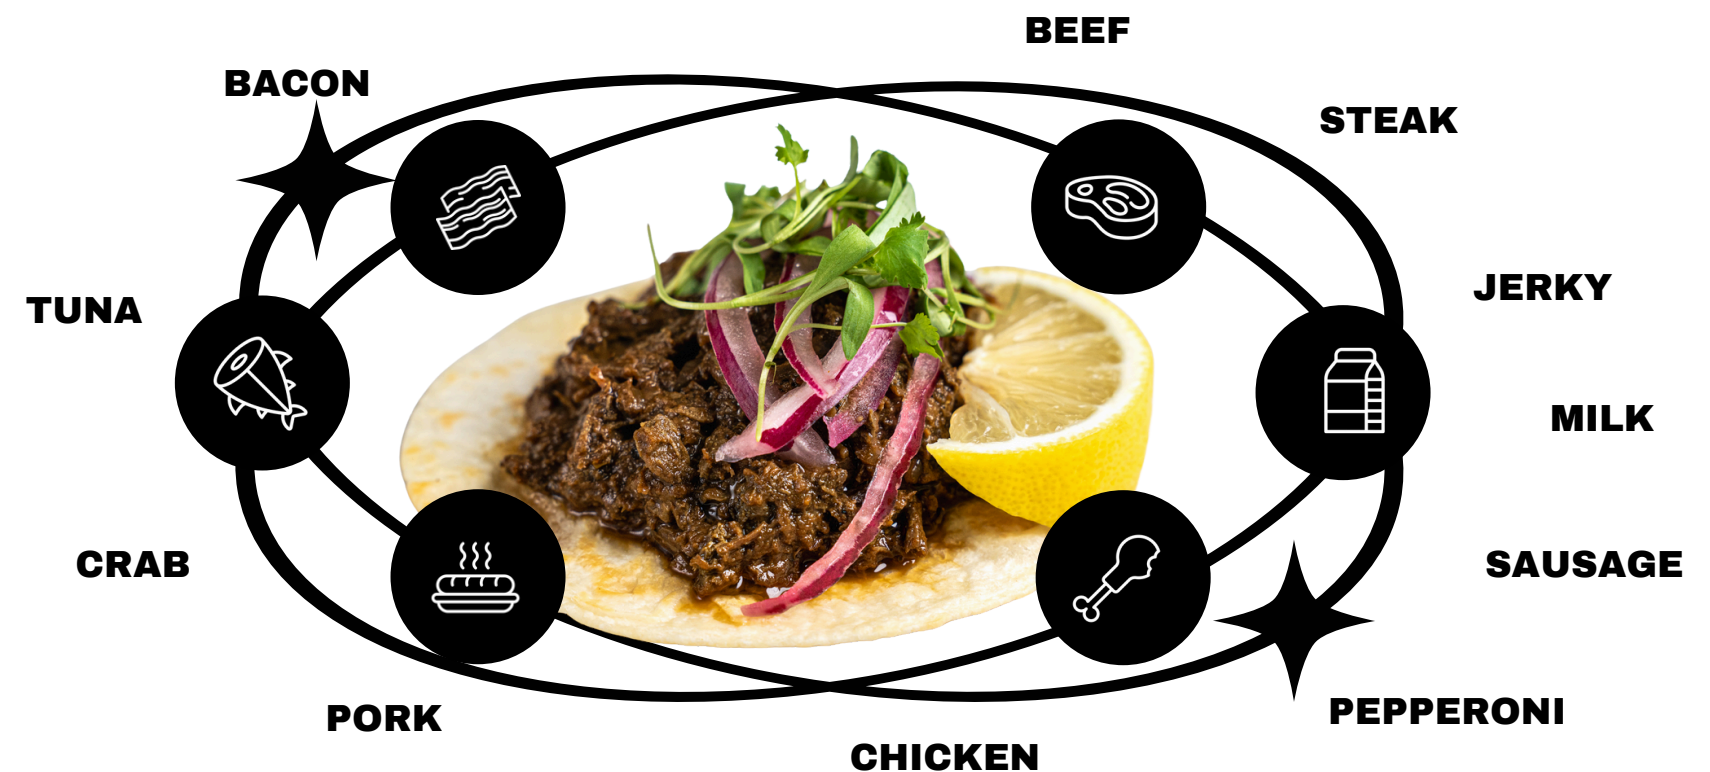

Identical taste & texture of meat

Accessible Pricing:
Price parity w meat

Healthier by Design:
Equal protein. Clean label

Planet-Positive:
Carbon-negative protein.

HARDCORE CARNIVORES ARE RAVING!

95% OF 1000 CONSUMERS

in blind tastings and qualitative in-depth studies and blind tastings prefer our beef, jerky and bacon over competitors

"I think this is the best plant based product I've ever tasted. You know I'm the health and wellness king"

"Your bacon tastes amazing! We both LOVE it and we're not vegan. Super excited for such a yummy alternative that's guilt-free for the environment!"

"The bacon tasted like the real thing. It was just as crispy and tender. I swear if you had me do a blind taste test, I'm not sure I would have been able to tell the difference"

"I grew up on pork bacon unfortunately. My family is from the South and didn't know how bad pork bacon was! I haven't had pork in 35 years!! Your product makes me think I'm back on pork!"

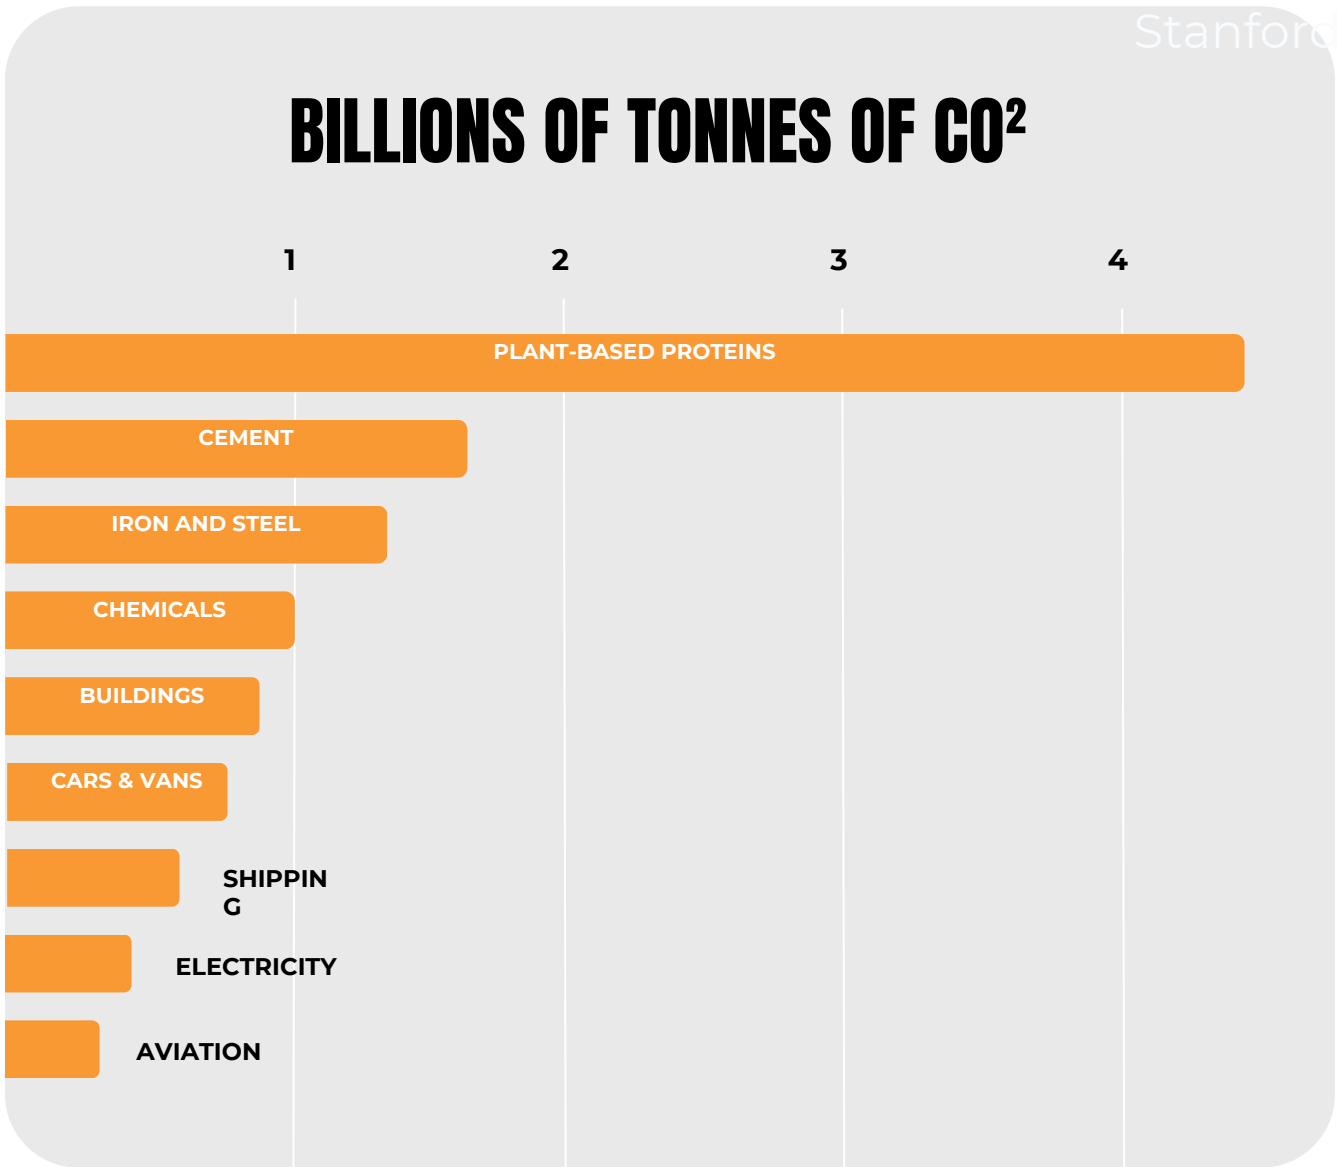

"Wow I'm shocked I'm so impressed. This is better than any other plant based meat product by far and I've tried them all"

"You do know this literally tastes better than beef right? It's addicting!! This is gonna takeover the game!!"

"Wow I can't believe it's not beef!! It tastes so much like the real thing"

"This is a game changer!! My son is a really picky eater. He is 4 years old and he demanded more"

**Phasing out animal agriculture represents
“our best and most immediate chance to
reverse the trajectory of climate change”**

**INVESTMENT IN PLANT-BASED PROTEINS
DELIVERS THE HIGHEST EMISSIONS CUTS
